

International Project Application

For projects within the United States, please view the Tree Pals section.

We do not fund projects. Please do not send us unsolicited proposals.

To submit an application to Trees for the Future for assistance in planting trees, please submit the following information:

- 1 What do you expect this project to accomplish?
- 2 Contact information, including mailing and email address?
- 3 A description of the project (how many region, towns, members, villages, hectares/acres)
- 4 A specific description of local problems and how trees will alleviate those problems.
- 5 What products or agroforestry techniques are most important for your project?
- 6 A description of the terrain, elevation, rainfall
- 7 What experience does your group have in leading tree planting projects?
How many years? How many trees planted?
- 8 Are you requesting videos, technical sheets, and/or posters?
If yes, in what language and what topics (refer to the Technical section for available resources).

If yes, how do you intend to use these informational materials?
- Are you requesting seed? If yes, what species and how exactly do you intend to use them?
- 9 Enclose at least two *action* pictures, preferably of the terrain to be reforested and the project leaders.
